Funding Acknowledgement:
This project has received funding from the European High Performance Computing Joint Undertaking under grant agreement No. 10113626.

PowerPoint Template Usage:
- Open the "View" "Slide Master" in PowerPoint. Select one slide, it doesn't matter which one - please just don't use the title slide, as it shouldn't have a footer
- Then click "Insert"
- Select "Header & Footer"
- Set the Footer and select "Apply to All" at the bottom
- Then go back into normal view and the footer will be set for all slides
